

POWERBAR AMINO MEGA LIQUID

**Food supplement with whey protein hydrolysate
including all essential amino acids.**

PRODUCT DESCRIPTION

After intense endurance or strength training sessions, your muscles are exhausted. Protein is needed as a "building block" to help maintain and build muscle mass. Powerbar AMINO MEGA LIQUID contains high-quality, easily digestible whey protein hydrolysate and free amino acids. In addition, it also provides vitamin B6, which contributes to normal protein and glycogen metabolism. Due to its practical format, the ampoule fits in every pocket.

- > High quality whey protein hydrolysate plus extra BCAAs (branched chain amino acids: L-leucine, L-valine, L-isoleucine)
- > With all nine essential amino acids (protein building blocks that cannot be synthesized by the body itself and must therefore be supplemented).
- > With vitamin B6, which contributes to normal protein and glycogen metabolism
- > Gluten-free
- > Suitable for vegetarians

All Powerbar Black Line products are also listed on the Cologne List® and have been tested and certified by Informed Sport (LGC) for banned substances. As a result, we can offer athletes even more safety and trust.

SUGGESTED USAGE

1 ampoule/day

Shake well before use.

This food supplement should not be used as a substitute for a varied diet. A balanced diet and a healthy lifestyle are important.

Do not exceed the recommended daily intake.

Keep out of reach of young children.

POWERBAR AMINO MEGA LIQUID
